

HOW TO COUNT UNIQUE ITEMS IN A COLUMN (VBA)

```
Function CountUnique(ByVal Rng As Range) As Long

Dim St As String

Set Rng = Intersect(Rng, Rng.Parent.UsedRange)

St = "" & Rng.Parent.Name & "!" & Rng.Address(False, False)

CountUnique = Evaluate("SUM(IF(LEN(" & St & "),1/COUNTIF(" & St & "," & St & ")))")

End Function
```

You could use it like:

```
MsgBox CountUnique(Sheets("Sheet1").Range("A:A"))
```
