

REMOTE DESKTOP COPY AND PASTE IS NOT WORKING ON REMOTE CLIENT

On the remote client/system, when connected:

- Load up task manager (right click taskbar and select **Task Manager**)
- Go to the **Processes Tab**
- Select **rdpclip.exe**
- Click **End Process**
- Go to the **Application Tab**
- Click **New Process**
- Type **rdpclip.exe**
- Click **Ok**

Hope this will help you ;)
