## SQL Server - Get Date Part Only from Datetime

I have seen scores of expert developers getting perplexed with **SQL Server** in finding time only from datetime datatype. Let us have a quick glance look at the solution.
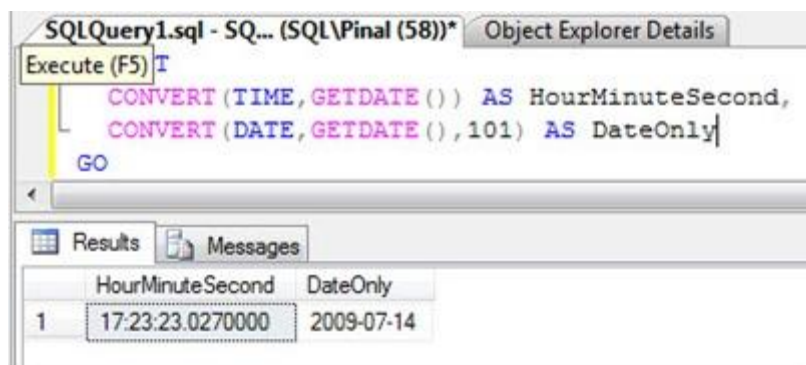

SQL Server 2000/2005

```
SELECT
CONVERT(VARCHAR(8),GETDATE(),108) AS HourMinuteSecond,
CONVERT(VARCHAR(8),GETDATE(),101) AS DateOnly
GO
```

SQL Server 2008

```
SELECT
CONVERT(TIME,GETDATE()) AS HourMinuteSecond,
CONVERT(DATE,GETDATE(),101) AS DateOnly
GO
```

I hope the above solution is clear to you all.
